FOREWORD

This book contains the full text of papers and posters presented at the International Conference on Education and New Developments (END 2019), organized by the World Institute for Advanced Research and Science (WIARS).

Education, in our contemporary world, is a right since we are born. Every experience has a formative effect on the constitution of the human being, in the way one thinks, feels and acts. One of the most important contributions resides in what and how we learn through the improvement of educational processes, both in formal and informal settings. The International Conference seeks to provide some answers and explore the processes, actions, challenges and outcomes of learning, teaching and human development. The goal is to offer a worldwide connection between teachers, students, researchers and lecturers, from a wide range of academic fields, interested in exploring and giving their contribution in educational issues. We take pride in having been able to connect and bring together academics, scholars, practitioners and others interested in a field that is fertile in new perspectives, ideas and knowledge.

We counted on an extensive variety of contributors and presenters, which can supplement our view of the human essence and behavior, showing the impact of their different personal, academic and cultural experiences. This is, certainly, one of the reasons we have many nationalities and cultures represented, inspiring multi-disciplinary collaborative links, fomenting intellectual encounter and development.

END 2019 received 547 submissions, from more than 50 different countries, reviewed by a double-blind process. Submissions were prepared to take form of Oral Presentations, Posters, Virtual Presentations and Workshops. The conference accepted for presentation 135 submissions (25% acceptance rate), from which, 114 submissions are published in full text in these volumes. The conference also includes a keynote presentation from an internationally distinguished researcher, Prof. Dr. Denise Whitelock, Professor of Technology Enhanced Assessment and Learning, Institute of Educational Technology, The Open University, UK, to whom we express our most gratitude.

This conference addressed different categories inside the Education area and papers are expected to fit broadly into one of the named themes and sub-themes. To develop the conference program, we have chosen four main broad-ranging categories, which also covers different interest areas:

- In **TEACHERS AND STUDENTS**: Teachers and Staff training and education; Educational quality and standards; *Curriculum* and Pedagogy; Vocational education and Counseling; Ubiquitous and lifelong learning; Training programs and professional guidance; Teaching and learning relationship; Student affairs (learning, experiences and diversity; Extra-curricular activities; Assessment and measurements in Education.
- In **PROJECTS AND TRENDS**: Pedagogic innovations; Challenges and transformations in Education; Technology in teaching and learning; Distance Education and eLearning; Global and sustainable developments for Education; New learning and teaching models; Multicultural and (inter)cultural communications; Inclusive and Special Education; Rural and indigenous Education; Educational projects.
- In **TEACHING AND LEARNING**: Critical Thinking; Educational foundations; Research and development methodologies; Early childhood and Primary Education; Secondary Education; Higher Education; Science and technology Education; Literacy, languages and Linguistics (TESL/TEFL); Health Education; Religious Education; Sports Education.
- In **ORGANIZATIONAL ISSUES**: Educational policy and leadership; Human Resources development; Educational environment; Business, Administration, and Management in Education; Economics in Education; Institutional accreditations and rankings; International Education and Exchange programs; Equity, social justice and social change; Ethics and values; Organizational learning and change, Corporate Education.

This is the Volume II of the book *Education and New Developments 2019* and it contains the results of the research and developments conducted by authors who focused on what they are passionate about: to promote growth in research methods intimately related to teaching, learning and applications in Education nowadays. It includes an extensive variety of contributors and presenters, who will extend our view in exploring and giving their contribution in educational issues, by sharing with us their different personal, academic and cultural experiences.

This second volume focus in the main areas of TEACHING AND LEARNING and ORGANIZATIONAL ISSUES.

We would like to express thanks to all the authors and participants, the members of the academic scientific committee, and of course, to our organizing and administration team for making and putting this conference together.

Hoping to continue the collaboration in the future.

Respectfully,

Mafalda Carmo World Institute for Advanced Research and Science (WIARS), Portugal Conference and Program Chair

Porto, Portugal, 22 - 24 June, 2019

KEYNOTE LECTURE

ASSESSMENT FOR LEARNING: WHERE ARE WE ON THE DIGITAL ASSESSMENT SPECTRUM?

Prof. Dr. Denise Whitelock

(B.Sc. M.Ed Ph.D)

Professor of Technology Enhanced Assessment and Learning, Institute of Educational Technology, The Open University (United Kingdom)

Abstract

Digital assessment is an evolving construct used in education to enrich, inform and complement the teaching process. Using automatic feedback however has been under-utilised and under-valued throughout the assessment process. This presentation will take you through a number of projects which have automated some aspects of assessment.

Those selected from my own research have a strong conceptual underpinning, for instance Dweck's work to develop Open Comment which provided feedback to Arts students. With Open Mentor, I used Bale's work on interactive categories to help tutors develop effective and supportive feedback. SafeSea, on the other hand, allows students to trial essay writing before taking the sometimes daunting step of submitting their first essay, using analysis based on Pask's conversational framework.

This presentation will discuss the issues raised by teachers and students in this arena. It will provide examples of how their concerns are currently being addressed by both researchers and software developers in order to support educator feedback to students. Finally, the issue of potential disruptors will be raised which moves us into the realm of crystal ball gazing.

Biography

Professor Denise Whitelock has over twenty years experience in designing, researching and evaluating online and computer-based learning in Higher Education. She is a Professor of Technology Enhanced Assessment and Learning in the Open University's Institute of Educational Technology. She is currently leading the UK's contribution to the Adaptive Trust e-Assessment System for Learning (TeSLA) directing just http://tesla-project.eu/project. She has completed the **CODUR** http://in3.uoc.edu/opencms_in3/opencms/webs/projectes/codur/en/index.html **SAFeSEA** http://www.open.ac.uk/researchprojects/safesea/ projects. The aim of this latter research was to provide an effective automated interactive feedback system that yields an acceptable level of support for university students writing essays in a distance or e-learning context. Her work has received international recognition as she holds visiting chairs at the Autonoma University, Barcelona and the British University in Dubai.

INDEX OF CONTENTS

ORAL PRESENTATIONS

Teaching and Learning	
Relationship Between Item Difficulty Level and Item Discrimination in Biology Final Examinations	3
Marthese Azzopardi, & Carmel Azzopardi	
The Effects of Implementing the Sydney School Genre-Based Approach in a Thai EFL Writing Classroom Napak-On Sritrakarn	8
Creating Contemporary Picture Short Stories Using Intertextual Heroes & Plot Subversion: An Empirical Research Christina Kalaitzi	13
Self-Monitoring and Peer Feedback Strategies: Challenges and Opportunities in the EFL Writing Class Thanakorn Weerathai	18
What Makes Autonomous Learning Objectives Autonomous: A Case Study from Higher Education Jitka Hlouskova	23
Exploring the Impact of a Swiss Bilingual Program Through a Mixed Method Design Emile Jenny, & Francesco Arcidiacono	27
Assessing the Effectiveness of Technological Tools in Teaching and Learning English as a Second Language Yu Zhao, María Cruz Sánchez Gómez, & Ana María Pinto Llorente	32
Methodological Creativity in Pedagogical Research – Global Challenge Snježana Dubovicki	36
Seeing, Reading and Listening to Gender Inequality/Equality in Video Clips Arminda Sousa, & Filomena Teixeira	41
A Perceptual-Cognitive Program to Train Soccer Players' Decision Making Julien Glaude-Roy, & Sacha Stoloff	46
Quantification of Critical Thinking Skills After with Computer Quiz Games in an Introductory Science Course Szu Szu Ling, Fabrice Saffre, Deborah Gater, Lilia Halim, & Abdel F. Isakovic	51
Evaluation of an Online Learning Resource for Nursing Students Preparing for an Emergency Department Clinical Placement Using Kirkpatrick's Model Darren Falconer, Helene Metcalfe, & Jeffrey Hamdorf	56
Maths Anxiety: Further Complicated by Spreadsheet Shock? Joanne Smailes, & Carlos Fresneda-Portillo	61
Sociocultural and Interactionist Approaches to Second Language Acquisition: Are they Compatible? Richard S. Lavin	66

Human Being Development Through Holistic and Complex Approach Tegwen Gadais, Michel-Alexandre Rioux, & Roger Boileau	71
Our Teachers: Collected Memories of Primary Education in Derbyshire Schools from 1944 - 2009 Fiona Shelton	76
English for Specific Purposes – Challenges for Post-Graduation Outcomes Rodica Silvia Stan	81
Critical Thinking in Digital Natives: A Doctoral Research Through a New Taxonomy Maria Caterina De Blasis	86
French Immersion Teacher and Student Perceptions About Science Instruction in a Second Language Setting Yovita Gwekwerere, & Ginette Roberge	91
Enhancing Understanding of Historical Time in Primary Classes: How to Improve the Curriculum in Lithuania? Aušra Žemgulienė	96
Exploring Students' Reflective Narratives on Language as the Subject of their Studies Loreta Chodzkienė	101
Community Experiences Through Peer Interaction Rituals of a Mongolian-Korean Child in the Preschool Classroom Gab-Jung Yoon, & Kai-Sook Chung	106
Critical Thinking in Design Marilyn DeLong	110
Higher Arts and Design Students' Attitudes Towards Learning Computer Programming Eduardo Morais, Carla Morais, & João C. Paiva	115
Low-Cost Code to Check Some of the 20 Rules for Efficient Web Writing: A Problem-Based Learning Situation Lina García-Cabrera	120
Content Based Instruction in the Foreign Language Classroom: Challenges and Barriers in the Context of an American Public School of the State of Massachusetts <i>Ana Henriques</i>	125
Overview of Design Teaching on Engineering Courses: A Comparative Study between Brazil and Portugal Claudia Alquezar Facca, Jorge Lino Alves, & Ana Mae Barbosa	129
Literacy Application in Disciplinary Pedagogical Practices at Legal Environment David Alberto Londoño-Vásquez, & Alvaro Ramírez-Botero	134
Model-Based Learning: An Inquiry Approach to Teach Science Tiago Ribeiro, Dulce Lima, Rosely Imbernon, Conceição Pereira, & Clara Vasconcelos	139
Assessing Outcomes in Electricity and Magnetism Courses in Engineering Degrees. Students' Performance Analysed by BEMA Tania Garcia-Sanchez, Roser Sabater I Serra, Ana Vidaurre, José Antonio Gómez-Tejedor, María-Antonia Serrano, José M. Meseguer-Dueñas, Soledad Bernal-Perez, Jaime Riera, José Molina-Mateo, Vicente Donderis Quiles, & M. Amparo Gámiz-González	144
